Date: 8/8/2000

(Signature of Mailer)

REISSUE DECLARATION

Dear Sir:

I, Steven J. Moore, citizen of the United States, declares that:

1. I presently reside at:

58 Butterfield Road, Newtown, CT 06470

and formerly resided at 9 Sonoma Road, Cortlandt Manor, NY 10566.

2. I believe that I am the original, first and only inventor of the subject matter described and claimed in U.S. Letters Patent No. 5,795,209 granted on August 18, 1998

09638012-081400

and for which a reissue patent is sought on the invention entitled "PACKAGE AMUSEMENT DEVICE AND METHOD," the specification of which is attached hereto.

3. I do not know and do not believe that the invention was ever known or used in the United States before my invention thereof.

4. I have reviewed and understand the contents of the above identified specification, including the claims.

5. No reissue of the application has been sought prior to this application.

6. I acknowledge my duty to disclose information which is material to the examination of this application with respect of patentability in accordance with Section 1.56(a) of Title 37, Code of Federal Regulations.

7. I verily believe that the original patent to be wholly or partly inoperative or invalid, by reason of the patentee claiming less than I had the right to claim in the patent. The claims recite "means" language which may unreasonably limit the scope of the claims to less than the invention disclosed in the specification, as such invention would be understood by one of ordinary skill in the art. The term "means" was intended to be generic, but may not be read so given recent pronouncements by the Federal Circuit. This, and other word use thought to be generic, may have caused the patentee to have claimed less than the patentee had a right to claim. Patentee therefore has added new claims to more clearly reach the breadth of the invention, and to this extent, the claims are believed to be broadened.

8. That the errors which render said patent wholly or partly inoperative or invalid arose from inadvertence, accident or mistake, and without any fraudulent or deceptive intention on my part.

The undersigned Applicant declares further that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or

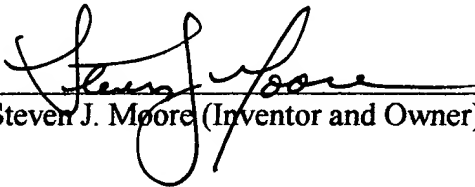

both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
